

Spartan Robotics Camp

We will explore the realm of science and technology with applied robotics using the LEGO® MINDSTORMS NXT system to design, build, and program autonomous robots to explore challenges that are only as limited as our imagination. On Friday, we will show off our engineering marvels in a friendly competition. Teamwork and “Gracious Professionalism” are stressed.

WHERE: LCHS RM322
WHEN: JULY 15 - 20
TIME: 8:30 AM - 2:30 PM
