

La Canada Engineering Club

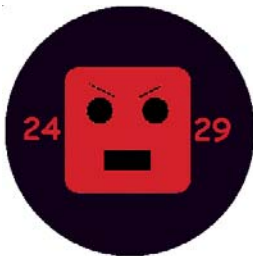

Welcome LCE Engineers!

We had a great response to our sponsorship of a FLL team at La Canada Elementary School. Fifteen students expressed interest and there is room for five more. Team 2429 can only fund one FLL team, but we are sure that a way can be found to support a second team and we will proceed with that expectation.

The following students have signed up: **Michael Seuylemezian, Suma Gudipah, Claudia Weinsein, Olivia Lam, Ari Baranian, Margaux Everingham, Tarya Corey, Janet Kim, Jacob Abbott, Grant Salter, Hannah Zimmerman, Cole Reeb, Erika Weiler, Davin Polchow and Jake Gill.**

I am thinking that it might be a good idea to have a robotics mini camp, the fourth week of July (July 21 – July 25). It would be from 8 am to 2:30 pm, Monday through Friday at the High School. Engineers would bring their own sack lunches. The cost would be \$100 for the week as we would buy the [lego robotic kits](#) and a few supplies. If there is enough interest we can proceed. Please respond with a yes or no by Tuesday, July 8 so we can start planning the camp. I have enclosed a tentative schedule for the camp.

Lastly, the team web site will be at: www.calzim.com/first/fli. It is not up yet but will be in a week or so. Have a good summer. We will see you soon.
